i26® is a unique immune support supplement developed in a partnership between Fortune 100 corporations DuPont and ConAgra. Different from other immune support products, it contains no added vitamins, minerals or herbs to modulate immune function. Instead it is a hyperimmune egg which contains immune factors that normalize, balance and support the human immune system through passive immunity. This all-natural product was developed from 20 years of research and a $50 million dollar investment in its research and development. i26® has over 165 patents on the technology and a listing in the Physicians’ Desk Reference for Nonprescription Drugs and Dietary Supplements.

**Passive Immunity**
Most mothers know that her breast milk contains immune factors designed to support the immature immune system of her newborn child. Breast feeding results in the passive transfer of immunity and babies are protected from disease by the immune factors present in their mother’s milk. However, chickens don’t breast feed but still supply equivalent immune factors packaged in the egg. Thus the chicken egg is a naturally concentrated source of immune factors for the protection of baby chicks. The difference between regular eggs and hyperimmune eggs is these chickens have been exposed to pathogens that cause disease in humans. Thus eggs laid by these chickens contain immune factors specifically targeted towards human disease. This specificity is what gives hyperimmune eggs such a powerful ability to balance the human immune system. Since your immune system is closely linked to the function of the nervous and endocrine systems, many aspects of human health are affected when the immune system is brought into proper balance with i26®.

**i26® supports FIVE aspects of human health**

**Cardiovascular Function, Cholesterol Levels and Circulatory System**
A healthy heart is essential to a fit and energetic lifestyle. i26® supports many aspects of cardiovascular function including cholesterol levels, blood pressure and circulatory function.*

**Flexible and Healthy Joints**
As we age, joint function may become impaired. i26® has been shown clinically to improve mobility and joint function. *

**Digestive Tract Health**
A healthy digestive system is critical to a healthy body and i26® has been proven to help balance digestive tract health.*

**Energy Levels and Sense of “Well-Being”**
If you need extra energy in the afternoon, you are like two-thirds of Americans who experience some sort of afternoon energy “slump”. i26® helps maintain and support energy levels, giving you the extra energy you need in the afternoon. i26® has been shown to improve your mental outlook and many people have reported they “feel great” when taking i26®.*

**Immune System**
A properly functioning immune system will both defend us from pathogenic bacteria, viruses and cancer while also normalizing an over-reactive immune system. When your immune system is over-reactive, you may develop allergies and are susceptible to auto-immune disease.*
Why is immune health important?

When healthy, your immune system is your best defense against invading viruses and bacteria. It is made up of millions of cells and has three main lines of defense against invaders; the digestive, respiratory and skin systems. These systems are constantly at work, screening bacteria, viruses and other foreign agents.

In order to effectively screen for potential invaders, your immune system must be healthy, balanced and ready to fight. Without a well-fortified and strong immune system, it can be difficult for your body to fight the pathogenic bacteria that you are exposed to every day.

Can i26® make my immune system healthier?

i26® helps balance and maintain your body's natural immune response. Your immune system affects both your physical and emotional health, so it is no surprise that i26 can make a significant difference in the overall quality of your life.

i26® provides your body with the essential natural immune components it needs to maximize the effectiveness of your immune system. The specific natural immune components found in i26® support gastrointestinal, immune, cardiovascular, joint and digestive functions. Clinical trials (double blind placebo controlled and open label pilot studies) prove that i26® promotes immune balance.

"A balanced immune system is vital to maintaining optimal health. I have many patients who have experienced significant benefits after using i26®

Gregory J. Forstall, M.D., Flint, Michigan, Southern Illinois School of Medicine
Chairman - Department of Internal Medicine, Director - Division of Infectious Disease

"Our survival depends - more than anything else - upon a strong and balanced immune system. Legacy’s i26® is a most impressive natural product approach for energizing, strengthening and balancing immune function. i26® is playing an important role in helping people of all ages to stay healthy and well."

Kenneth M Kroll, M.D., Las Vegas, NV
Harvard Medical School, Board Certified in Anti-aging Medicine, Fellow of the International College of Surgeons

"i26® is a common sense approach to maintaining and supporting one's health. Our bodies choose from among a rich smorgasbord of ingredients, to maintain their innate immune balance. i26® lets the body do what it does best naturally. We should never underestimate the power of our immune systems."

Hellen C. Greenblatt, Ph.D., Wilmington, DE, Downstate Medical Center, Vice-President - Legacy for Life

i26® should not be taken if you have any known egg allergies. i26® is pure egg powder, based on hyperimmune egg technology. A daily serving of i26® is equivalent to consuming 1/3 of a whole egg and it actually helps to maintain and support healthy cholesterol levels. *

i26® is also available in three flavors as a fortified protein shake. It contains additional vitamins and minerals and is known as i26® Complete Support and is now available as part of a complete weight management program, the Legacy Balance for Life program. i26® is also available as chewable tablets and as a children’s chewable (Power Chews).

*This statement has not been evaluated by the Food and Drug Administration. i26® is not intended to diagnose, cure, treat or prevent any disease.

What People Are Saying about i26®

My wife and I, 64 years of age, started using i26® and i26® Complete Support on December 1, 2001. Our energy levels are so high that we almost have to remind ourselves to go to sleep. It has given us, as Mark Yarnell says, "The Fountain of Youth" through our balanced immune systems.

E & E W. Kooskia, ID

We live in a one-story home, which because of my lack of joint mobility is excellent for me. I was unable to bend down and play with my dogs, knit (I love knitting and always knit sweater for everyone on my Christmas list), do housework, or walk for any distance. If I walked to the end of our house I started to limp and pant for breath.

I tried several "sure cure" immune system boosters, various health store purchases and what not. Where they did help they tended to plateau after a short time and the search was on again.

Both my husband and I were thinking about getting a wheelchair and oxygen, where to put the ramp, how to store the oxygen!

A friend from our church approached us with i26® and FLEX. I have been using them since July 2002. Since then I have undergone an enormous boost in energy. I’ve knit seven sweaters and a long coat for my adult children, and a sweater for both of my granddaughters who are 20 years old and 2 years old. I did this knitting in a two-month period and had no problem with stiffness or discomfort. A bonus came as well. I am 67 years old and as of the past few months - no one will believe me! The bottom line is that I now have my life back after thirty years of progressive bad health and discomfort. I have never felt better, certainly not over the past thirty years.

Violet Hoyt

This is a story about my 15-year-old tabby cat, Vito. My favorite way to hold my cat is in the crook of my arm with his belly up just like a baby. Well about last Christmas time it became obvious that this position caused him severe back discomfort. He would meow pathetically when I would pick him up and push my hands away with his paws and want down. By springtime he could no longer jump up on our bed. This was devastating to both my husband and I, as the vet really had no solution. We tried different things with no results. My husband and I have no children so you can only imagine how spoiled and important Vito is to us.

In April of 2002 I was introduced to the i26®. When I heard animals could take the pure i26® I immediately put Vito on one full serving a day. I just sprinkle it over his dry food and mix it up really well with a spoon until all the nuggets are coated. After a few months I saw him running down the asphalt driveway, which I had not seen him do for years. He was also actively hunting more than usual. He definitely has more energy and he’s obviously feeling better. He can also tolerate my holding him like a baby on his back again. We’re both very happy about this!

After about 4 months of one serving a day I went to two a day and he’s doing great with that. I notice when he does not have the i26® in his bowl, like when we are traveling or something, he does not eat as much. He loves it.

We can’t tell you how grateful we are to Legacy for such a wonderful product. It’s helped him so much. Now we call him BioCat.”

Diane Holden

Idaho

I broke my ankle six years ago and had to have pins in it for about two years. After consuming i26® for about 45-60 days, I noticed my joints were more flexible. I was able to wear a 3-inch heel to a Christmas party!

Terry D.

Millbrae, CA

Our story varies a bit as we have owned a health club for 20 years and never before have sold any vitamins, minerals, or supplements of any kind. We saw everything come across our desk, and knew there were many good things out there, but we didn’t want to play doctor we chose not to go there...until i26®. We did our due diligence and we are glad we did, because it has made a difference in so many of our members as well as our family! We all lead busy hectic lives, that crazy non-stopped life that is full of every day stress. i26® keeps me feeling as good as I do.

I teach a step/power pump aerobic class and every now and then I find that I need some extra flexibility of my knee, I take a couple FLEX capsules and I am amazed at how quickly I forget about that knee.

I am 54 years old and my body has experienced loss of joint and muscle flexibility and depleted energy levels. I was fortunate to have been blessed with two great friends that introduced me to i26® Complete Support. I started taking it August 2001 and after taking it for three days, I felt energetic and my joints and muscles were healthier and more flexible. Today I am more active during my days and sleeping better than I have in years, thanks to i26® Complete Support!

Inez K.

Mobile, AL

My colon ruptured in 1996 and I had emergency surgery to remove part of the colon. My life was turned upside down. I always had a general feeling of being tired, no energy, losing weight. My weight was down to 112, from 145. Basically I was living a life of quiet desperation, hoping and praying for some relief.

For five years I had tried a boatload of products and NEVER had any results normally throwing them away after a couple weeks. Then I discovered an unbelievable/miraculous product called i26®. I tried it and have been EXTREMELY PLEASED with the results.

I have a lot of energy and sleep through the night. My appetite has returned, my colon has calmed down, and I have resumed exercising (running everyday) and playing play golf again. And I’m happy to report; my weight is up to 160 lbs. In other words, life is thoroughly enjoyable both physically and mentally. All because of i26®!
I thank the good Lord everyday for bringing i26® into and changing my life. I also thank the gentleman that wrote me a letter and introduced me to this phenomenal product. It frightens me to think where I might be now if that person hadn’t cared enough to send me that message.

My own doctor was so impressed with the results I had, he recommended it to a patient of his and had outstanding results.

David E. Allery
Colorado

I am 63 years old, and as a child and young adult my parents struggled emotionally and financially with my lack of health. No one seemed to be able to help me. I remember complaining that I was so tired all the time.

In March of 2001, my husband heard of i26® Complete Support and ordered it for me to try. I was very negative, but he insisted, he made me the shakes and stood over me until I drank them. After three weeks of taking the shakes I noticed I was sleeping more soundly, I had more energy, and my joints were more healthy and flexible. I thank God for i26® Complete Support!

Lynnette S.
Hollister, MO

My wife Deni was sneaking this i26® stuff and not sharing. Then after a while she starts handing me this drink and a couple of these capsules, I take them, but only when she was handing it to me. I have got to say that I did feel a difference in my shoulder, knees, back pretty much my body as a whole. I lift weights and get exercise, but after years of driving a truck and as a contractor I have felt the aches and the wear and tear on the body. My workouts are better than ever; I feel stronger than I have in years, and I the only thing that has changed in the past four years is the i26® and FLEX. So for those of you out there those consider yourself to be healthy or have some problems and are just chalking it up to getting older. DON’T.... take your i26® and FLEX every day. It will make a difference! “Jackson, who not only at 56 opens the club every morning at 4:30 am, but is a contractor who puts a full day in at work as well,” says wife Deni.

Jackson Maroni

I wasn’t feeling great, so I went searching for something to help my health and found i26® Complete Support. I had nothing to lose, and began the program for what my body needed so desperately. From the very first day of using this product I noticed a well being I haven’t felt in many years. Each day I continue on this program and within a few weeks I felt the energy my system needed so badly. Today I am a healthy woman and my thanks are to i26® Complete Support for giving me what no doctor could.

Linda K.

I had a career that required parachute jumping and have had several injuries to my head, neck, and back. I was making frequent trips to the Mayo Clinic, however they were not able to assist me with my discomfort. Last year, I became a Distributor after attending the Open Opportunity Meeting at the 2002 National Conference, and start on i26®. Within a short amount of time the discomfort I felt decreased significantly. I am currently on vacation, here in Daytona Florida for Bike Week, and enjoying every moment!

Jerry R. Jones

Before using i26® I had significant discomfort in my heel. In the morning I spent 5 to 8 minutes before I could put my feet down on the floor and if I had to go to the bathroom it was a very long 5 to 8 minutes.

I got started on i26® capsules and started a nine capsules/a day program. Then one morning after about two weeks of consuming i26®, I woke up and went straight from my bed to the kitchen and then sat down when I discovered I could finally walk with comfort! Wow! What relief! Now my body knows and feels the difference!

I feel better than great! And I will continue to share the good news! I carry at least i26® capsules with me and have a bottle at my work place. I am never without.

Jeanne C.

Prior to this I really did not feel at all sure I would see my 80th birthday. Then my nephew gave me a can of i26®. Guess what? I did this past September. Also I feel much stronger in my resolve to get on with life and help as many people as I possibly can to get the benefits of this great product. THANK YOU to the great team that got this on the market and giving us the opportunity to be part of it all.

Trudy Barber

Fifteen years ago I was so “down”, that I was totally unable to do much. Nutritional supplements played a significant role in my recovery. But never have I been able to use a product like i26®, I have been taking i26® for 22 months. I noticed the difference within ten days. I began to wake up earlier with a better attitude and more energy.

At the age of 50 I feel healthier than I have in many years. And I feel I am far more in control of my health with i26®. My mood and attitude toward life has become more and more positive. I feel and act like a younger and healthy man. My ambition and youthfulness remind me of when I was in my early 20’s.

John Dimartino
Colorado

My name is Michael Sandstra and before I using i26® I would have classified myself as healthy. I’m 38 years old and very active in physical conditioning and play soccer an average of twice weekly. My diet is reasonable but has room for improvement. I started taking i26® because of constant physical stress I put on my body as well as several other stresses.

I lost my mother to an autoimmune condition that really raised my health consciousness. Within my first three weeks, I noticed considerable improvement without the fatigue and burnout that is common with physical workouts. My recovery time between workout sets has greatly improved and reduced my gym time by almost 15 minutes. My energy is much more consistent both in the gym as well as on the soccer field. I’ve also noticed greater mental clarity and feel more rested when starting my day despite 6-7 hours sleep.

The best part is I know that I’m giving my immune system the best support available to keep it balanced so it can operate at peak efficiency at all times to protect my God-given health. With so many people in today’s world living under constant physical-emotional-physiological and environmental stresses, i26® is a must for everyone to leverage their health for now and for the future.

Mike Sandstra

One year ago I was extremely tired due to finals at my university. I was a full time student and long hours of studying were common to me. By April, I had a hard time waking up by 10am. All the daily stresses in my life were taking over and I could not control them. I could not believe I was this unhealthy at age 24.

I took the product, i26®, Tuesday night around 10pm. For the first time in months I woke up the next morning at 5am. on my own!!!!! No alarm, nothing!!!! I had such an increase in energy so I went for a mile run and worked out all by 8am. About 3-4
months after taking the product I realized I was feeling much more energetic and healthier. I know i26® did not cure me but I feel so much better. The support and balance of my Immune System provided to me by i26® will help me with current and future health issues.

James Lupkin

For more than five years now, we have had a constant battle with our 9-year-old German shepherd’s fur. Ever since she was spayed, she has had a poor quality coat with patches of missing fur, a funny odor, and not a lot of energy. Over the years I have tried many things to help her, without success. About three weeks ago, I began giving her 1/3 serving of i26® on her food. The results are incredible! Not as much itching, disappearing hot spots, ear infection improving, not much odor, and she is playful!!! In addition, her coat feels luxurious! Thank You For i26®!

Sarah Sauve

I have been taking i26® for 5-6 weeks and feel less stressed, less depressed, and more relaxed. I am able to sleep better. I have less body ache and soreness especially in my knees. My energy level is much higher and I am more focused. Overall I am functioning at a higher level mentally emotionally and physically. Although I still do get tired towards the end of the day I am somewhat stronger and less fatigued. Hopefully I can share my story with someone else and they will decide to try i26® so it will help them also.

Claire Schneider

New Jersey

I was tired and down in the dumps all the time; I slept all the time. I was tired of going to the doctor and tried everything: physical therapy, herbs, vitamins, and pharmaceuticals. You can only feel so bad for so long until you just can’t take it any longer.

Nothing made a difference until: i26® Complete Support!! I have been taking i26® Complete Support since March of 2002 and my life has changed! It is so good to have hope. I sleep great at night and I have a lot more energy than I had a year ago! My entire family is on i26® Complete Support and we have not felt better. It is just fantastic what this product has done for my family and me! We will never ever stop taking i26® Complete Support now that we know what it can do. I could go on and on about the great things this product has done but it would take many pages, I just know that this is the best thing that has happened to my family! We will be forever grateful for this superb product and are telling everyone we know about it! I am a passionate Legacy for Life Distributor; no one will ever try and tell me it does not work because I know first hand what it does! It builds and strengthens the immune system! What can be better than that? Having great days again,

Colleen Brinkman

I am 83 years old, and before i26®, my hips would lock up after a short walk and I would have to sit down for a spell before I could walk again. I got started on this Product because my son wanted me to try it. I have been taking i26® in a few days. I started walking miles with less hip discomfort for the last several months. I feel great and have lots of energy.

Bob Schimmelmann Spring Hill, Florida

I originally began taking i26® to help my joint issues. Walking was difficult. Lifting my arms over shoulder height was hard. I could not empty the dishwasher, pull the covers up at night or do many tasks that required use of my hands and arms. Taking i26® is the only change I have made in my D I E T. I am now able to perform all of the tasks mentioned.

Before i26® my energy level was almost nonexistent. We have a tri-level and were contemplating selling it. Walking up a short flight of stairs made me so tired I had to sit down and rest. It made me so tired to go anywhere that the only reason I would go was a conscious effort to stay connected with friends.

My friends and family can’t believe the difference in me. It is so wonderful, they see me and they too have started to benefit from taking i26®.

Jan Patik

My name is Deborah Hughes and I am 49 years old. I have owned a restaurant for 18 years, and at one time I had 3 restaurants going at one time. Needless to say this was taking a toll on my mind and body. My stress level was at the top. I was having a lot of problems with my stomach and my wrist, neck, shoulders and head felt stressful. Also when the seasons changed, I became even more uncomfortable. I was a wreck physically and emotionally, which left me unable to enjoy the time I did have off because I was just too fatigued. It was just an effort to drag myself home late every night and after not resting well, to have to go back into the restaurant early every morning. My energy level was at an all time low. But a little over 4 months ago I was fortunate to be introduced to the Legacy team and the i26® Products. I take one scoop of i26® and two FLEX capsules every morning to start my day, and I can tell you truthfully I haven’t felt this good since I was in my twenties. I work all day long, joints or neck stress or anywhere else for that matter. The changing of the seasons doesn’t bother me any longer. I rest deeply at night, wake up feeling like a million dollars, have loads of energy to do what I need to at the restaurant, even if I have to work a long day, and I still have the energy to do what I need to at home and other activities. I can’t say enough about i26® and FLEX and what it has done for me. I am proud to be a Distributor, and part of the Legacy team. I can’t imagine that everyone isn’t on i26® and feeling as great as I do.

Deborah Hughes

Sayre, Oklahoma

In March of last year I was sitting in a coffee shop contemplating my future and thinking it was pretty bleak, as I don’t have a pension plan where I work and our RRSP’s may last for 3-4 years but what then? I must have looked desperate because just about that time Mike Sandstra approached me, introduced himself, asked me “the question”, handed me a tape and left. The tape went into my jacket pocket where it sat for two days. When again I put that jacket on there in the pocket was Mike’s tape. When the tape was finished I pulled over, phoned Mike, and asked him “Where do I send my check?”

Four days later a package arrived via Fed Ex and my wife and I started taking i26® I noticed that I had more energy and generally felt much better. Legacy for Life is the company and i26® is the product that will not only provide for our retirement but enhance and enrich our lives.

Thank you Mike!

L. Gordon McTaggart

Thanks to i26® I feel as if I have a second chance at life. After taking i26® for two weeks I was out of bed and back on my feet. Now, I have been on the product for over six months and I am amazed that my body continues to get stronger and stronger, and my mind gets clearer and clearer. My personal goal is to educate as many people as possible to these products.

John Murphy

Las Vegas, Nevada

I am 83 years old. After taking i26® for 31 days, I feel like I am 33 years young! I feel like I could go on and on without tiring. I require only four hours of sleep and naps are a thing of the past. I feel great. I sleep like a baby! This marvelous new discovery is truly the fountain of youth for me!! Thank You Very Much,
Mr. J Norman Stone

Last September, my energy was so low that to even do laundry I required the assistance of my daughter and some days I would sleep for as long as 14 hours a day. The fatigue was even beginning to affect my thinking and judgment. I knew that medicines were not going to solve my problems and therefore I chose to suffer until I heard of i26®. Within four days my energy began to increase and the pain began to gradually decrease. My thinking is much clearer and immune has even improved my digestive track. As a registered nurse the thing that impressed me the most about i26® is all of the clinical trials and studies that have been done on the product. The product is safe and natural and it’s helping thousands of people just like me. Please try i26® today and start living again.

Margie Brammer, R.N.
Collinsville, Virginia

I want to say this is by far the most outstanding product my husband and I have ever taken. It took months to get him to try the product and then he finally did it on his own!! He’s hooked to say the least. When we get close to running out we argue over whom gets the last bit until the next order arrives.

I must say there is a drastic difference in my overall health and energy when I use the product daily. As for my other half, he is an active duty soldier, Communications, with US Army. For him this product gives an awesome boost. Being energetic at age 36 does him good when they have APT tests. He’s in school right now, as an E6 leadership school is mandatory and as of right now is going to be the Distinguished honor Grad. I am proud; he is going on to Warrant Officer school from here if not overseas first. This product has given him the stamina to do this in school, I truly believe that.

Janet Acton

I had been having a lot of emotional up and downs for the past twenty years and was living on the edge every day. Things were so bad that my family had left and I was virtually unemployable. Then I talked to Rich Morgan and he introduced me to i26® Complete Support I have been taking i26® Complete Support shakes for over a year and I am proud to say that I have felt more energetic and better then ever. My life has truly been saved. My family has moved back and we have never been closer. My wife says that the man she married is back. I can’t wait until I am a full time Legacy for Life Distributor. i26® Complete Support and Legacy have given me the opportunity to make a difference in the lives of others and to provide my family with the life they deserve.

Paul G. Eberhart
Boiling Springs, South Carolina

A friend of mine from Canada that I had played ball with had undergone ten knee operations through the past ten years On the 32nd day of being on i26® he was out walking his dog. At a certain point during this daily walk he would normally have to stop and rest. But he was still ready to continue on. He finished the entire walk, when the norm had been that he would have to lie down for a period of time, he still felt the energy, went out and winterized his boat

He came home and still had energy. He had an appointment with his doctor a short time thereafter and moved his knee in positions that had been unknown for years, ran in place for a period of five minutes, once again a stranger for many years.

My friend, was always blessed with great foot speed and was always one of the fastest on the teams, next to myself, of course, that he played on so his inability to perform was most emotionally trying to him.

His doctor, whose office was in the same medical complex as his surgeon said we have to go to the surgeon’s office to show him the improvements. Once again, my friend repeated his performance. Both doctors dismayed and asked him what he was doing to himself.

At that time, he pulled out his can of i26®, to which the doctors almost in unison replied, “We don’t know what it is but stay on it and we want to know more about it.” The doctors will become Legacy for Life Distributors in the very near future.

Bill Thomas

Over the past couple of years I found my cholesterol levels were not where they needed to be. I started on a daily serving of i26® Complete Support and five months later found that it had an impact on my cholesterol levels. I can only conclude that my daily servings of i26® Complete Support are playing a significant part in my overall health. My energy level has never been higher despite an 18-hour day schedule. I remain alert and able to perform my daily tasks, as well as run my Internet business bringing the good news of i26® Products to the general public.

Allan Auguste

My daughter recommended that I start using i26® Complete Support several months ago. Since I have been taking the Strawberry flavored i26® Complete Support, I have felt an increase in my energy level. I also have noticed that my knees have become less bothersome and more flexible. Thanks Legacy, this product is wonderful!

Robert
Houston, Texas

Our family began taking i26® and i26® Complete Support in October 2001. We have all received many benefits as a result, so I’ll list a few. I have a carpet cleaning business and some days clean 3000 to 4,000 square feet of carpet. Before learning about i26® my whole body ached, and my hands tingled from poor circulation and rarely got a good nights sleep. At the age of 47 I feel like 25 again with so much energy, my body does not ache even after a hard day, my hands don’t tingle and sleep has been great. i26® and i26® Complete Support convinced my wife when she had to sit with her mother at the hospital four nights in a row, come home, take a shower and head off to another stressful day at the office. The third morning she came in from the hospital, Kathy fixed an i26® Complete Support shake and said, "This stuff works!" Our boys, Bryan (14) and Brandon (12) love the i26® Complete Support shakes. We have gained new customers just from our boys telling others about this super product!

Mike Hord

For over a year now my wife, daughter, and I have been using i26® Complete Support and i26®. We have all experienced greater energy since beginning this. In addition, my mother who suffered from pain in the joints of her hands has told me that since she began taking i26® Complete Support, about a year ago, her pain has decreased. She also related to me that she feels like she has much more energy.

Catherine, Don and Lisa Roberts

A few weeks ago, I was given a bottle of your i26® from my boss. By the second week I had more energy. I really put your product to the test one weekend when I washed windows and went on a two-mile walk that evening. If I had done this a few weeks prior, I would have been flat on my back on the third day. Today is that third day and I am up and running. I have more energy and my stamina is definitely increasing. Before I would have been down for the count without a doubt! Here is to a new beginning!!

Sherry M. Greiner
California
I’m a professional singer and owner of two marketing companies. I have concert appearances and a lot of client contact, so it is very important for me to always look my best. With LEGACY Skincare my skin is so healthy. I have no more razor burn and had no dry skin this past winter. The small wrinkles around my eyes are virtually gone. Despite my 55 years, people say I look like I’m in my thirties! Not too long ago I developed a skin condition that resulted in red lesions around my eye and down the side of my face. The Doctor said it would take six to eight weeks for these to heal. My outstanding results were, in less than two weeks the lesions were gone and within another week the redness was gone. My Doctor was amazed! I credit my extremely fast healing to my regular consumption of immune26 and use of the LEGACY Skincare system, and recommend these products to men, women and children alike.
